Volume 64 (2001)

Meeting patients' needs with patient information systems: potential benefits of qualitative research methods
A. van't Riet, M. Berg, F. Hiddema, K. Sol (The Netherlands) . . . 1
Evaluating informatics applications—clinical decision support systems literature review
B. Kaplan (USA) . . . 15
Evaluating informatics applications—some alternative approaches: theory, social interactionism, and call for methodological pluralism
B. Kaplan (USA) . . . 39
Evaluation of the suitability of a patient data management system for ICUs on a general ward
A. Junger, A. Michel, M. Benson, L.A. Quinzio, J. Hafer, B. Hartmann, P. Brandenstein, K. Marquardt, G. Hempelmann (Germany) . . . 57

Editorial . . . 67
Side effects and responsibility of medical informatics
G. Gell (Austria) . . . 69
User requirements specifications: a hierarchical structure covering strategical, tactical and operational requirements
J. Brender, P. McNair (Denmark) . . . 83
Strategic information management plans: the basis for systematic information management in hospitals
A.F. Winter, E. Ammenwerth, O.J. Bott, B. Brigl, A. Buchauer, S. Gräber, A. Grant, A. Häber, W. Hasselbring, R. Haux, A. Heinrich, H. Janssen, I. Kock, O.-S. Penger, H.-U. Prokosch, A. Terstappen, A. Winter (Germany, Canada, Austria) . . . 99
Delivering the electronic healthcare record for the 21st century
J. Grimson (Ireland) . . . 111
Modelling health care processes for eliciting user requirements: a way to link a quality paradigm and clinical information system design
P. Staccini, M. Joubert, J.-F. Quaranta, D. Fieschi, M. Fieschi (France) . . . 129
Implementing information systems in health care organizations: myths and challenges
M. Berg (The Netherlands) . . . 143
Integrating users' activity modeling in the design and assessment of hospital electronic patient records: the example of anesthesia
M.C. Beuscart-Zéphir, F. Anceaux, V. Crinquette, J.M. Renard (France) . . . 157
Development and implementation of an EPR: how to encourage the user
M.J. van der Meijden, H. Tange, J. Troost, A. Hasman (The Netherlands) . . . 173
Nursing process documentation systems in clinical routine—prerequisites and experiences
E. Ammenwerth, U. Kutscha, A. Kutscha, C. Mahler, R. Eichstädter, R. Haux (Germany) . . . 187
Electronic patient records and innovation in health care services
P.B. Elberg (Denmark) . . . 201
Medical knowledge reengineering—converting major portions of the UMLS into a terminological knowledge base
S. Schulz, U. Hahn (Germany) . . . 207
Standardized terminological services enabling semantic interoperability between distributed and heterogeneous systems
J. Ingenerf, J. Reiner, B. Seik (Germany) . . . 223
A MeSH based intelligent search intermediary for Consumer Health Information Systems
G. Göbel, S. Andreatta, J. Masser, K.P. Pfeiffer (Austria) . . . 241

HONselect: a multilingual and intelligent search tool integrating heterogeneous web resources
C. Boyer, V. Baujard, V. Griesser, J.R. Scherrer (Switzerland) 253
Conceptual alignment of electronic health record data with guideline and workflow knowledge
G. Schadow, D.C. Russler, C.J. McDonald (USA) 259
Computerising a guideline for the management of diabetes
P. Barahona, F. Azevedo, M. Veloso, N. Estêvão, R. Gallego (Portugal) 275
Design and implementation of a framework to support the development of clinical guidelines
P.A. de Clercq, A. Hasman, J.A. Blom, H.H.M. Korsten (The Netherlands) 285
DiasNet—a diabetes advisory system for communication and education via the internet
S. Plougmann, O.K. Hejlesen, D.A. Cavan (Denmark, UK) 319
Decision support for infectious diseases—a working prototype
J. Joch, J. Dudeck (Germany) 331
Validation of a knowledge based reminder system for diagnostic test ordering in general practice
R. Bindels, R.A.G. Winkens, P. Pop, J.W.J. van Wersch, J. Talmon, A. Hasman (The Netherlands) 341
Cased-Based Reasoning for medical knowledge-based systems
R. Schmidt, S. Montani, R. Bellazzi, L. Portinale, L. Gierl (Germany, Italy) 355
Towards integration of clinical decision support in commercial hospital information systems using distributed, reusable software and knowledge components
M.L. Müller, T. Ganslandt, H.P. Eich, K. Lang, C. Ohmann, H.-U. Prokosch (Germany) 369
XML for electronic clinical communications in Scotland
P.S. Woolman (UK) 379
Medical support system for continuation of care based on XML web technology
G. Stalidis, A. Prentza, I.N. Vlachos, S. Maglavera, D. Koutsouris (Greece) 385
Securing interoperability between chip card based medical information systems and health networks
B. Blobel, P. Pharow, V. Spiegel, K. Engel, R. Engelbrecht (Germany) 401
Secure medical digital libraries
I. Papadakis, V. Chrissikopoulos, D. Polemi (Greece) 417
A JAVA-based DICOM server with integration of clinical findings and DICOM-conform data encryption
J. Bernarding, A. Thiel, A. Grzesik (Germany) 429
Atlas-based segmentation of bone structures to support the virtual planning of hip operations
J. Ehrhardt, H. Handels, T. Malina, B. Strathmann, W. Plötz, S.J. Pöppl (Germany) 739
Reality and perspectives in teleradiology: a personal view based on personal experiences
U. Engelmann, A. Schröter, M. Schwab, H.-P. Meinzer (Germany) 449
Simulating tumour removal in neurosurgery
A. Radetzky, M. Rudolph (Austria, UK, Germany) 461
Ultrasound and angio image compression by cosine and wavelet transforms
J. Puniene, V. Punys, J. Punys (Lithuania) 473
